

- **Image Segmentation**
 - Thresholding
 - Pixel Clustering
 - Edge detection
 - Region growing
 - Level set methods
 - Watershed
 - Model based
 - Multi-scale
 - Trainable pixel-classification
- **Spot detection**
- **Tracking**
- ...

- **Filtering** detected objects based on
 - Size, shape, intensity
 - Texture, location, neighbours
- **Binary morphological operations**
 - Open/close
 - Skeletonise
 - Hit-or-miss transform
- ...
